

## Microsoft Teams

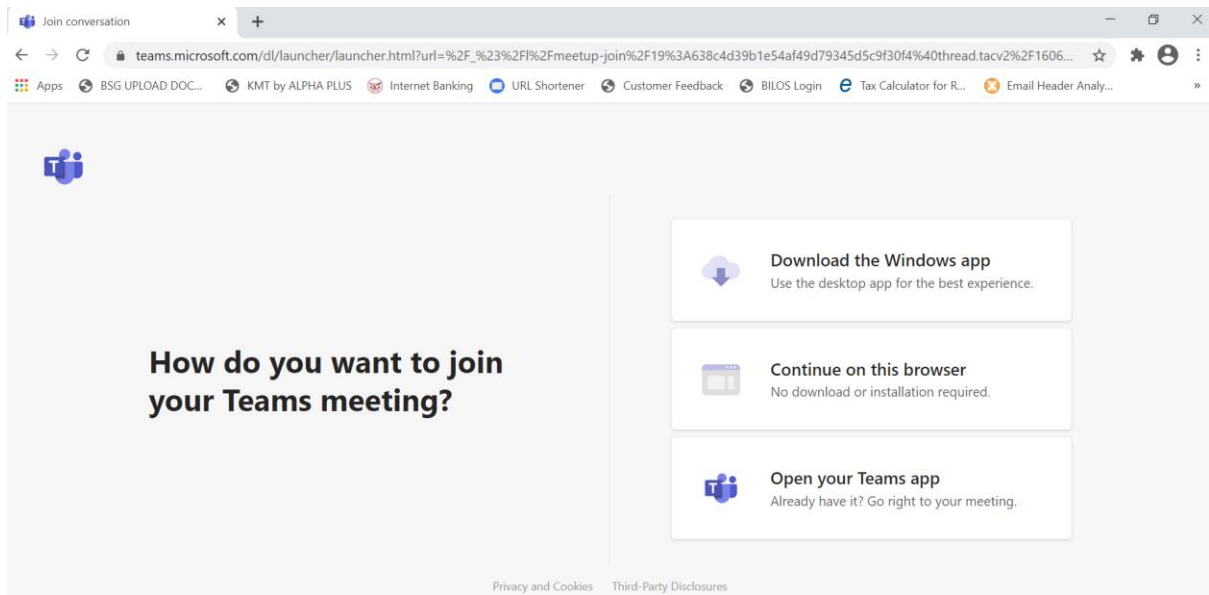

Open Chrome Browser and type URL in address bar :

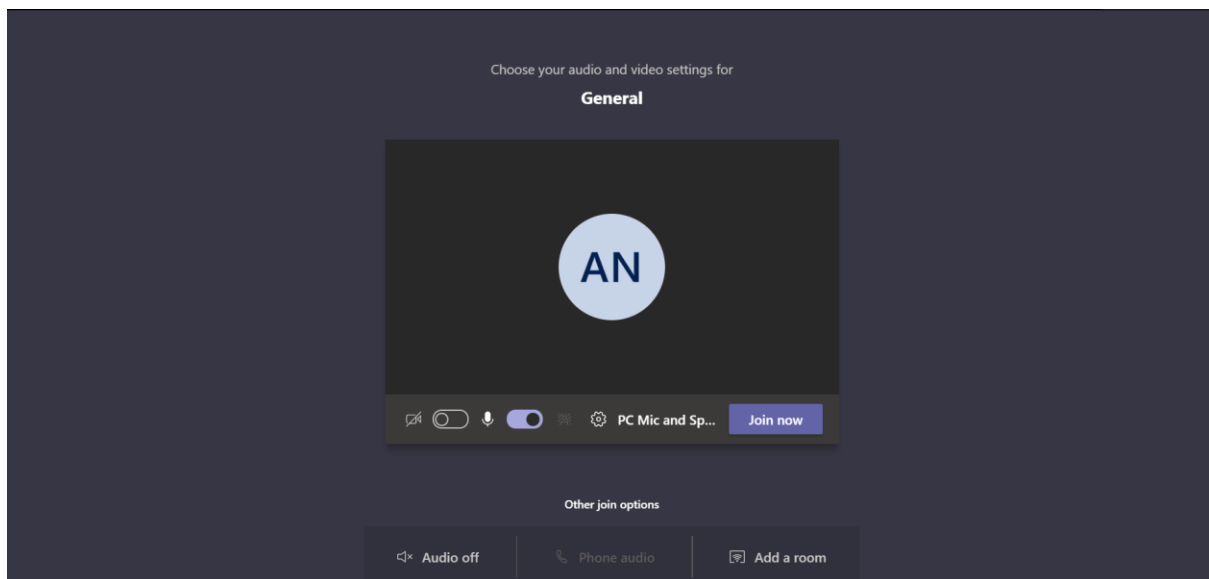

If you have Microsoft Teams installed on your Laptop / PC then click on Open Microsoft Teams option

If you are not having Microsoft Teams App installed on Laptop / PC then click on Cancel TAB shown in the popup window. Then Click on the option Continue on this browser

Microsoft Teams will open the page – just enter your name and click on Join Now and wait for organizer to admit

If you are going to use Microsoft Teams App on your mobile then download the app from Google Play Store / Apple App Store and install the app on your mobile.

To attend the session. Just click on the link provided by the bank through SMS.

On clicking the link, mobile system will automatically open chrome browser installed on your mobile and then system will redirect you to the Microsoft Teams App automatically.

After opening Microsoft Teams App Window – Just **Enter your Name** and click on the option button **Join Now**.

**For better performance while using Microsoft Teams through mobile, recommended to turnoff your video. If two users are sitting next to each other and using Microsoft teams on mobile and laptop / pc it may create echo.**
